# E-STATEMENTS

## Facts vs Myths and other info you should know!

E-Statements have recently seen a rise in signups, and for good reason! We're here to tell you why people are making the switch, and correct any misleading information you may have heard about this safe and secure statement option!

### MYTH

**E-Statements are unsafe! Anyone can hack into an online account and steal my info!**

**E-Statements are so inconvenient. It's easier for me to get them in the mail.**

**Signing up for E-Statements is just too complicated.**

**Added bonus to signing up:  
E-Statements are environmentally friendly!**

### FACT

E-Statements are actually **SAFER** than paper statements! Some cities have seen a rise in mail theft, leaving victims vulnerable to identity theft among other issues! E-Statements are protected by a secure username and password. As long as you log in from secure locations (like a private home wifi) and never give this information out to anyone, your banking information will stay **secure, private, and safe!**

We make E-Statements **EASY!** With so many convenient benefits, you're sure to appreciate the switch. E-Statements can be viewed online, and now you can view them on-the-go via your mobile banking app! The best part- they store in your mobile account for **24 MONTHS!** Say goodbye to all that messy paper stacking up, or endless hours of organizing! Need a paper copy? You can easily print them as well! When we say convenient, we mean it!

It's never been easier to make the switch from paper to E-Statements.
